

CONTACT INFORMATION	PRHLT Research Group Technical University of Valencia Camino de Vera s/n Edif. 8G Acc. B 2nd Floor Valencia, Spain	Phone: (+34) 963878172 E-mail: dortiz@prhlt.upv.es
EDUCATION	<b>MSc in Bioinformatics</b>	
	University of Valencia, Valencia, Spain	Expected graduation date: February 2016
	<ul style="list-style-type: none"><li>MSc Thesis on human metabolic networks simulation using flux balance analysis (under development at the <a href="#">Computational Genomics Unit</a> of the <a href="#">Centro de Investigación Principe Felipe</a>)</li></ul>	
	<b>PhD in Pattern Recognition and Artificial Intelligence</b>	
	Technical University of Valencia, Valencia, Spain	Graduation date: October 2011
	<ul style="list-style-type: none"><li>Thesis title: Advances in Fully-Automatic and Interactive Phrase-Based Statistical Machine Translation</li><li>Advisors: Francisco Casacuberta Nolla and Ismael García Varea</li></ul>	
	<b>MSc in Pattern Recognition and Artificial Intelligence</b>	
	Technical University of Valencia, Valencia, Spain	Graduation date: November 2005
	<ul style="list-style-type: none"><li>Thesis topic: Search Algorithms for Phrase-based Statistical Machine Translation</li></ul>	
	<b>BSc in Computer Science Engineering</b>	
PROFESSIONAL EXPERIENCE	University of Castilla La Mancha, Albacete, Spain	Graduation date: September 2003
	<ul style="list-style-type: none"><li>Specialization in program of Pattern Recognition and Artificial Intelligence</li><li>Thesis topic: Stack Decoding Algorithms for Statistical Machine Translation</li></ul>	
	<b>Research Consultant (Data Scientist) for Webinterpret</b>	April 2015 to today
	<ul style="list-style-type: none"><li>Introduction of natural language processing techniques into the Webinterpret's workflow</li></ul>	
	<b>Assistant Professor</b>	December 2010 to today
	Technical University of Valencia, Valencia, Spain	
	<ul style="list-style-type: none"><li>Statistics (undergrad level, Spanish and English): Courses 2011/12, 2012/13, 2013/14, 2014/15</li><li>Operational Research (undergrad level, Spanish): Courses 2010/11, 2012/13</li></ul>	
	<b>Post-Doctoral Researcher</b>	February 2012 to December 2014
	PRHLT Research Group, Technical University of Valencia, Valencia, Spain	
	<ul style="list-style-type: none"><li>CASMACAT research project, funded by the 7th Framework Programme of the European Commission (funding amount: €2 500 000)<ul style="list-style-type: none"><li>Online and active learning techniques for statistical machine translation</li><li>Scalable and parallel estimation of HMM models using Map-Reduce</li></ul></li></ul>	
	<b>Independent Expert (FP7 research project reviewer)</b>	March 2011 to May 2011
	European Commission	
	<ul style="list-style-type: none"><li>Scientific reviewer of the <a href="#">EuromatrixPlus research project</a> (budget: €5.94M), EuromatrixPlus belongs to the 7th Framework Programme of the European Union</li></ul>	
	<b>Research Assistant</b>	July 2008 to January 2012
	Instituto Tecnol. de Informática, Technical University of Valencia, Valencia, Spain	
	<ul style="list-style-type: none"><li>MIPRCV research project, part of the <a href="#">CONSOLIDER programme</a> of the Spanish Government which hosted excellent research groups <a href="#">according to Nature</a> (funding amount: €4 500 000)<ul style="list-style-type: none"><li>Application of the incremental EM algorithm to the estimation of HMM models</li><li>Design and implementation of stochastic error correction models for string pairs</li></ul></li></ul>	
	<b>Computational Linguistic Researcher</b>	March 2003 to June 2008
	Technical University of Valencia, Valencia, Spain	
	<ul style="list-style-type: none"><li>Participation in several research projects funded by the Spanish Government<ul style="list-style-type: none"><li>Design and implementation of search algorithms for statistical machine translation (A* search, dynamic programming, greedy algorithms)</li><li>Estimation of statistical translation models using Map-Reduce</li></ul></li></ul>	

RESEARCH STAYS	Three months research visit to the <a href="#">Lershtul für Informatik VI</a> at <a href="#">Aachen University of Technology (RWTH)</a> (Germany), from May 2006 to July 2006
SUPERVISED MSC AND PHD THESES	Jesús González Rubio. Technical University of Valencia. <a href="#">PhD Thesis</a> . May 2014 Álvaro Peris Abril. Technical University of Valencia. <a href="#">MSc Thesis</a> . September 2014
SELECTED PUBLICATIONS	Antonio L. Lagarda, <b>Daniel Ortiz-Martínez</b> , Vicent Alabau, Francisco Casacuberta. Translating without In-domain Corpus: Machine Translation Post-Editing with Online Learning Techniques. <i>Computer Speech &amp; Language Journal</i> , 11/2014; DOI: 10.1016/j.csl.2014.10.004 [ <b>Ranking Q1</b> ] <b>Daniel Ortiz-Martínez</b> , Francisco Casacuberta. The New Thot Toolkit for Fully Automatic and Interactive Statistical Machine Translation. <i>Proceedings of the European Chapter of the Association for Computational Linguistics (EACL) conference</i> , Gothenburg, Sweden, April 2014 [ <b>CORE A</b> ] Jesús González-Rubio, <b>Daniel Ortiz-Martínez</b> , Francisco Casacuberta. Active learning for interactive machine translation. <i>Proceedings of the European Chapter of the Association for Computational Linguistics (EACL) conference</i> , Avignon, Paris, 2012 [ <b>CORE A</b> ] <b>Daniel Ortiz-Martínez</b> , Ismael García-Varea, Francisco Casacuberta. Online Learning for Interactive Statistical Machine Translation. <i>Proceedings of the North American Chapter of the Association for Computational Linguistics - Human Language Technologies (NAACL HLT) conference</i> , Los Angeles, US, 2010 [ <b>CORE A</b> ] <b>Daniel Ortiz-Martínez</b> , Ismael García-Varea, Francisco Casacuberta. Phrase-level alignment generation using a smoothed loglinear phrase-based statistical alignment model. <i>Proceedings of the XII European Association for Machine Translation (EAMT) conference</i> , Hamburg, Germany, October 2008 ( <b>Best paper award</b> ) [ <b>CORE B</b> ] <a href="#">Link to full publication list</a> (currently comprises more than 50 research papers) <b>NOTES:</b> info about the <a href="#">CORE ranking</a> , impact of <a href="#">conferences vs. journals in Computer Science</a>
SELECTED INVITED TALKS	“Incremental Learning for Statistical Machine Translation”, <a href="#">Workshop on Future Directions on Translation Research</a> , Nara, Japan, December 2012 “Thot: New Features to Deal with Larger Corpora and Long Sentences”, In TC-STAR OpenLab on Speech Translation Workshop, Trento, Italy, March 2006
SCIENTIFIC AND PROGRAM COMMITTEES	Scientific reviewer of international conferences and journals (IUI, ACL, COLING, Computer Speech and Language Journal, Knowledge Engineering Review Journal) Member of the program committee of conferences and workshops (CAEPIA, ACL, AMTA)
OPEN SOURCE SOFTWARE	Thot Toolkit for Statistical Machine Translation <ul style="list-style-type: none"> <li>Hosted on github <a href="http://daormar.github.io/thot/">http://daormar.github.io/thot/</a></li> <li>Provides search algorithms and scalable and parallel estimation of statistical models</li> <li>Funded by the European Commission and by the Spanish Government</li> <li>+50 000 lines of code</li> </ul>
AWARDS AND SCHOLARSHIPS	Co-supervisor of the PhD Thesis “On the Effective Deployment of Current Machine Translation Technology” written by Jesús González Rubio, which received the <a href="#">LRC best PhD Thesis award of 2014</a> <a href="#">Honorable mention award</a> in the Information and Communications Technology category at Valencia Idea competition, Spain, 2010 <a href="#">Best paper award</a> for “Phrase-level alignment generation using a smoothed loglinear phrase-based statistical alignment model” given by the European Association for Machine Translation. Germany, 2008 Predoctoral Fellowship (FPI), public competitive call, Spanish Government, (2003-2007) 5th course of Computer Science studied in the Technical University of Valencia under the Seneca scholarship programme of the Spanish Government (2001-2002)
TECHNICAL SKILLS	<i>Programming Languages:</i> C, C++, Python, AWK, UNIX shell scripting <i>Machine Learning Toolkits:</i> SNNS, SRILM, GIZA, Moses <i>Computer Applications:</i> Statgraphics, $\text{\LaTeX}$ , most common productivity packages (Windows and Linux)
